

(a) Case 186: rescued

Open the left drawer.

Left

Right

Wrist

Advice: "Lower your view and gripper below the countertop to the left drawer."

Control: fails at 750; assisted: succeeds at 674

Both: intervention at 384 / 750 steps; initial state and 24-query prefix match.

(b) Case 586: not rescued

Open the right drawer.

Left

Right

Wrist

Advice: "Back the wrist slightly away from the cabinet face, align the gripper with the horizontal handle on the right drawer directly below the countertop, grasp the handle, and pull straight outward."

Control: fails at 750; assisted: fails at 750
